- Statistical Programming Environments: Python, basic ability in AWS environments, R, Mathematica
- Other Programming Languages: SQL (primarily MySQL), IATEX, Bash, Git
- Specific Abilities: Web Scraping, Data Mining, Data Cleaning, Predictive Modeling, Data Visualization, Regression Analysis, Sports Analytics (MLB, NHL, NBA)

# RELEVANT WORK

SQL Developer and Stats Analyst

2018 - Present

National Hockey League

EXPERIENCE

MLB/NHL Buzzword (analysis, or data science, or research, etc.) Mdalury LLC

2015 - 2018

- Used statistics, data programming, SQL database architecture, and domain specific knowledge to develop a set of proprietary data, models, and tools primarily focused on Daily Fantasy Sports.
- My role was broadly focused around researching metrics to add to our models by combining domain knowledge and testing methods to create and analyze potential features for our predictive models, implementing these features into existing models, visualizing various metrics or results of the models, and writing scripts to update and maintain our databases.
- From the time I was hired (July 2015), we held a robust record of success, including being consistently ranked as a Top 5 player in my focus areas (MLB and NHL) as well as being the overall #1 ranked player for 2016 and 2017, all according to RotoGrinders.com.

Co-creator - xGoals shot quality project

2014 - 2016

#### FourthLineHeroes

- Developed shot quality metrics for NHL hockey to approximate the caliber of possession.
- Developed metrics to measure goalie performance based on the quality of shots faced.
- Abstract accepted to 2016 Sloan Sports Conference; full manuscript available upon request.
- A full display of metrics and further explanation is available at http://fourthlineheroes.com/

Basketball Analytics Intern

May 2014 - August 2014

Golden State Warriors, Oakland, CA

- Structured, developed, and populated draft dataset for the 2014 NBADL draft.

Front Office and Game Day Assistant Santa Cruz Warriors, Santa Cruz, CA Winters 2014, 2015

- Assisted with the stats team and occasionally served as official scorer at scorer's table.
- Assisted with daily work in the front office during the 2015 NBA D-League Showcase.

# OTHER WORK EXPERIENCE

Data Manager

Summer 2013

LK Educational Consulting, Santa Cruz, CA

- Researched and updated Excel spreadsheets, organized reference materials.

Science Technician/Intern

Summer 2012

Kinnetic Laboratories, Inc., Santa Cruz, CA

- Analyzed water runoff data to identify storm events.
- Charted chemical content in runoff water during storm events to measure water quality.

Rock Climbing Assistant

Summers 2010-11

Pacific Edge Climbing Gym, Santa Cruz, CA

- Set up safety gear, belayed children, and gave basic instruction.

Catering Assistant

Summer 2011

Feast For a King Catering, Santa Cruz, CA

- Assisted with set-up, serving, and support for catered events.

Rock Climbing Assistant

Summers 2009-10

Gateway Mountain Center, Lake Tahoe, CA (volunteer)

- Demonstrated climbing techniques/routes, belayed climbers, assisted with set-up and logistics for Donner Summit Rock Climbing Camp.

Center Referee and Assistant Referee

2005 - 2010

Scotts Valley/San Lorenzo, Santa Cruz, and Excel Soccer Clubs, Santa Cruz, CA

- Certified U.S. Soccer Grade 8 Referee.

## OUTSIDE INTERESTS

- Rock Climbing I have been rock climbing since 2008 and enjoy climbing in a variety of areas both domestically and internationally.
- Simulation Baseball Since 2008 I have played in Diamond Mind Baseball (DMB) simulation baseball leagues and enjoy using these leagues for honing my technical skills and practicing decision theory.
- NBA Shot Charts Mostly as an exercise to improve my data visualization I wrote a python script that could plot NBA shot charts. Then, as an exercise to utilize an automated posting system I wrote a python Twitter bot that tweets pseudo-random charts under the handle @NBAChartBot.
- Recreational Team Sports Team sports have always been a big part of my life. I primarily played competitive baseball and soccer in my earlier years, but shifted to more recreational intramural sports in college, and have continued to play these sports recreationally after graduating.
- Cats I love most animals, but I feel most strongly about cats. My cats are always fun to be around and do a great job cheering me up if I am in a bad mood.
